

Announcing a Change to our Adult Class Payment System

(Effective Sept. 4, 2018)

At BalletNova we have found that most adult students prefer to use a Class Pass to take classes. The Class Pass is extremely popular because it has many advantages over the traditional enrollment system, including:

- Flexibility: Class Pass can be used to take any class
- Convenience: if you miss a class, there is no need to schedule a make-up
- Value: Class Pass is valid for a longer period than our 19- and 20-week semesters

Because of the overwhelming popularity of the Class Pass, we have decided to offer all adult classes, except the introductory workshops, on a Class Pass basis only.

Here's how it will work:

- Purchase a Class Pass online or at the studio. If you purchase online, stop by the studio to pick up your pass. Once you have the Pass, you can add value online or at the studio.
- Take any adult class at any time, simply stop by the front desk on your way to class to have the pass scanned.

The one exception: Introductory Workshops

BalletNova offers four-week introductory workshops in Ballet. These workshops will be offered on both an enrollment and Class Pass basis, though enrollment is strongly recommended. The fee for each workshop is \$60, and enrollment is not transferable; you may only take the workshop in which you have enrolled. If you miss a class, though, you can make it up in a future session at no additional cost.

At BalletNova we feel this simplified system will make it easier for new students to understand how to pay for their classes and will better fit the lifestyle of our adult students.

We appreciate your loyalty to BalletNova, so in the coming months, BalletNova will introduce a rewards program which will offer a variety of benefits to our students.
